

LDC Rack Mount Unit

Application Guide

4mm Allen Key Required (Not Supplied)

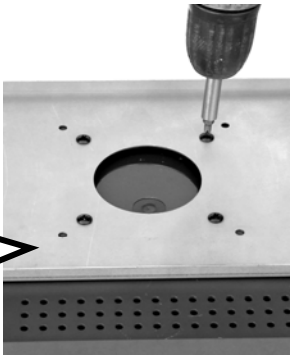

Fit the 4 M6 Chimney Nuts to the LCD Mount Panel with **flat side outwards** as shown

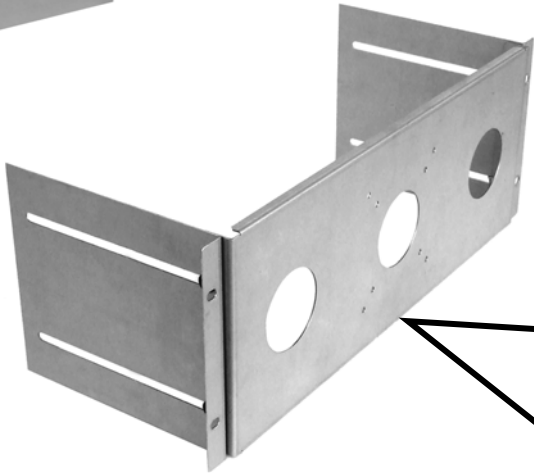

Your Kit has: -
1 x LCD Mount Panel
2 x Rack Mount Sides
4 x M6 Chimney Nuts
4 x M6 Socket Screws

Fixing an LCD unit to the Main panel is done via the universal **VESA** mounting points as shown here

With small screens assemble the sides as shown – **DO NOT** tighten until it has been fitted into the rack. You can then set the LCD depth and pitch & lock into place with a 4mm Allen key

With larger LCD screens up to 22" assemble as shown **DO NOT** fully tighten then fit into the rack
Mount the LCD from behind using the VESA mounting points
Finally adjust the depth and pitch & lock into place
